

Liberate®

Penetrant, Deposition Aid, Drift Control Agent

LIBERATE® is an uptake enhancing surfactant blend. Liberate is designed for use with pesticides that recommend a non-ionic surfactant, and works especially well with systemic chemistry, reducing driftable fines.

PRODUCT BENEFITS:

- **TO:** Drift reduction with performance-sized droplets
- **ON:** Droplet retention by adhesion and spreading
- **IN:** Increased penetration without cuticle disruption
- Neutral pH - ideally used with sulfonyl urea herbicides and other pesticides that require a pH 7 (neutral) or higher
- Contains an antifoam/defoam component and will not cause foaming problems in the spray tank
- 100% active and odorless

LIBERATE is a premium surfactant containing *Leci-Tech technology*. Not only is it an excellent spreader-activator, but it also provides superior penetration of thick waxy cuticles. **LIBERATE** is one of the few surfactants that also provides effective drift reduction. *Due to its environmentally friendly make-up, LIBERATE has a full aquatic label for both ground and aerial applications.* It's an excellent fit for use with many of the aquatic herbicides on the market today.

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.
