

# Liberate®

## Penetrant, Deposition Aid, Drift Control Agent

**LIBERATE®** is an uptake enhancing surfactant blend. Liberate is designed for use with pesticides that recommend a non-ionic surfactant, and works especially well with systemic chemistry, reducing driftable fines.

### PRODUCT BENEFITS:

- **TO:** Drift reduction with performance-sized droplets
- **ON:** Droplet retention by adhesion and spreading
- **IN:** Increased penetration without cuticle disruption
- Neutral pH - ideally used with sulfonyl urea herbicides and other pesticides that require a pH 7 (neutral) or higher
- Contains an antifoam/defoam component and will not cause foaming problems in the spray tank

### TARGET CHEMISTRIES:

- Sulfonyl urea (SU) herbicides, fungicides and those chemistries requiring a neutral pH

### RATES

Apply 1 to 4 pints per 100 gallons when used with **Herbicides, Defoliants, Dessicants**

Apply 0.5 to 2 pints per 100 gallons when used with **Insecticides, Fungicides, Acaricides, Plant Growth Regulators, Foliar Nutrients**

Apply 1 to 2 quarts per 100 gallons when used for **Drift Reduction**

**NOTE: Do not use on pear or grape foliage**

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.

### In the Plant —

Increased Penetration without Cuticle Disruption

IN

Demonstrates herbicide on velvetleaf up to 72 hours after treatment (HAT). The first 3 pictures are herbicide alone. The last 3 pictures have a Leci-Tech adjuvant added.
