

Every Drop Counts!

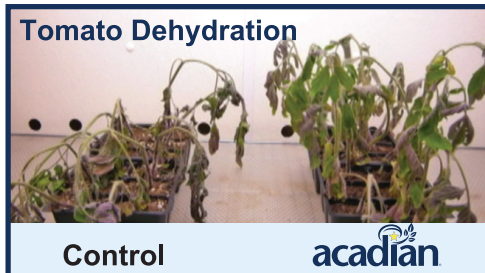

Offering solutions to improve your water use efficiency

Regular applications of Acadian® are critical to helping your crops stand up to water stress.

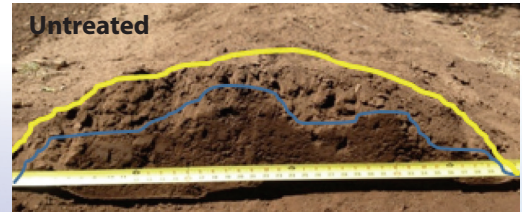

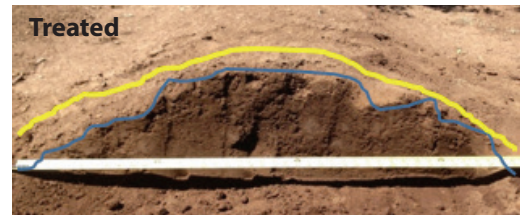

Acadian® fortifies crops to resist damage and recover more quickly from drought, salt and heat stress for a more productive, profitable season.

- **Increase rooting for better water uptake**
- **Improve water status**
- **Faster recovery from stress**

WaterMaxx®2 maximizes water infiltration and distribution:

- Improves infiltration so that water and nutrients move into the rootzone quickly and evenly
- Improves the lateral movement of water, increasing the horizontal reach of water
- Improves the availability of water and nutrients to the plant, increasing crop productivity
- Reduces water use and makes every drop count

Contact your Nutrien Ag Solutions™ dealer today to customize a solution to improve your water distribution, efficiency and uptake.
