

Accomplish^{LM}

Soil Applied

The Accomplish[®] line of products are innovative biochemical fertilizer catalysts designed for use with both liquid and dry fertility programs, significantly increasing fertilizer availability and overall plant performance. **Accomplish LM is specifically formulated for use with liquid fertilizer and broadcast applications.**

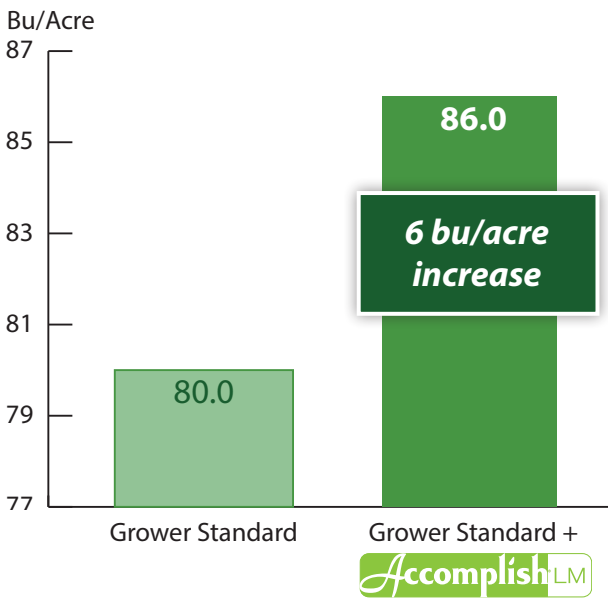

PRODUCT BENEFITS:

- Improves nutrient availability and uptake
- Promotes better root growth and development
- Increases crop yield potential

Improved Root and Stalk Development with Accomplish LM Application

Corn – Moody, TX (2013)

Accomplish LM applied at 1 qt per acre with Grower Standard (3 gals 11-37-0 and 1 qt BlackJack Zn in furrow)

Increased root mass

Grower Standard Grower Standard + Accomplish^{LM}

Larger stalk diameter

Grower Standard Grower Standard + Accomplish^{LM}
