

Accomplish^{LM}

Soil Applied

The Accomplish[®] line of products are innovative biochemical fertilizer catalysts designed for use with both liquid and dry fertility programs, significantly increasing fertilizer availability and improving overall plant performance. **Accomplish LM is specifically formulated for use with liquid fertilizers, manures and other broadcast applications.**

PRODUCT BENEFITS:

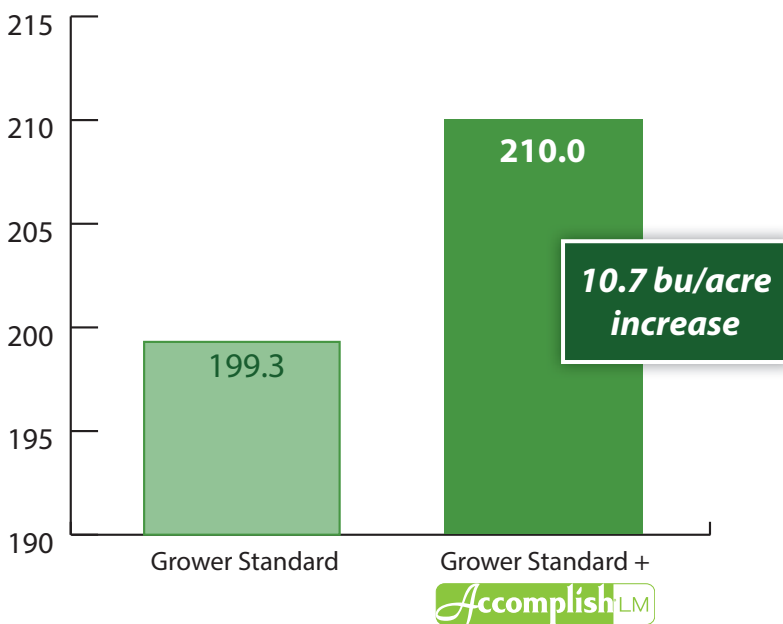

- Improves nutrient availability and uptake
- Enhances nutrient use efficiency
- Promotes better root growth and development
- Improves plant performance
- Optimizes yield potential
- Used at low volumes and compatible with a variety of fertilizers

Improved Corn Yields With Accomplish LM in a Sidedress Program

Corn – Wiles Brothers, Plattsmouth, NE (2013)

Accomplish LM applied at 1 quart per acre and Instinct[®] II applied at 35 oz per acre with 53 lbs UAN 32% sidedress

Bu/acre
