

Accomplish^{LM}

Soil Applied

The Accomplish[®] line of products are innovative biochemical fertilizer catalysts designed for use with both liquid and dry fertility programs, significantly increasing fertilizer availability and improving overall plant performance. **Accomplish LM is specifically formulated for use with liquid fertilizers, manures and other broadcast applications.**

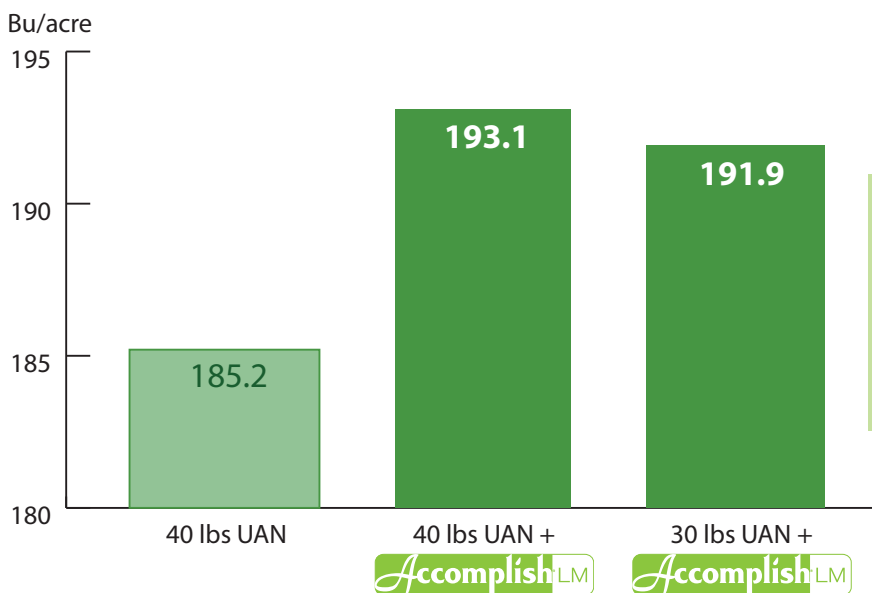

PRODUCT BENEFITS:

- Improves nutrient availability and uptake
- Enhances nutrient use efficiency
- Promotes better root growth and development
- Improves plant performance
- Optimizes yield potential
- Used at low volumes and compatible with a variety of fertilizers

Improved Corn Yields in Sidedress Programs

Corn – Bowling Green, MO (2013)

Accomplish LM applied at 1 quart per acre with UAN 32% sidedress SxS

Recommended Applications:

- 1 quart/acre with UAN up to 30 gallons
- 2 quarts/acre with UAN over 30 gallons
