

Accomplish^{LM}

Soil Applied

The Accomplish[®] line of products are innovative biochemical fertilizer catalysts designed for use with both liquid and dry fertility programs, significantly increasing fertilizer availability and improving overall plant performance. **Accomplish LM is specifically formulated for use with liquid fertilizers, manures and other broadcast applications.**

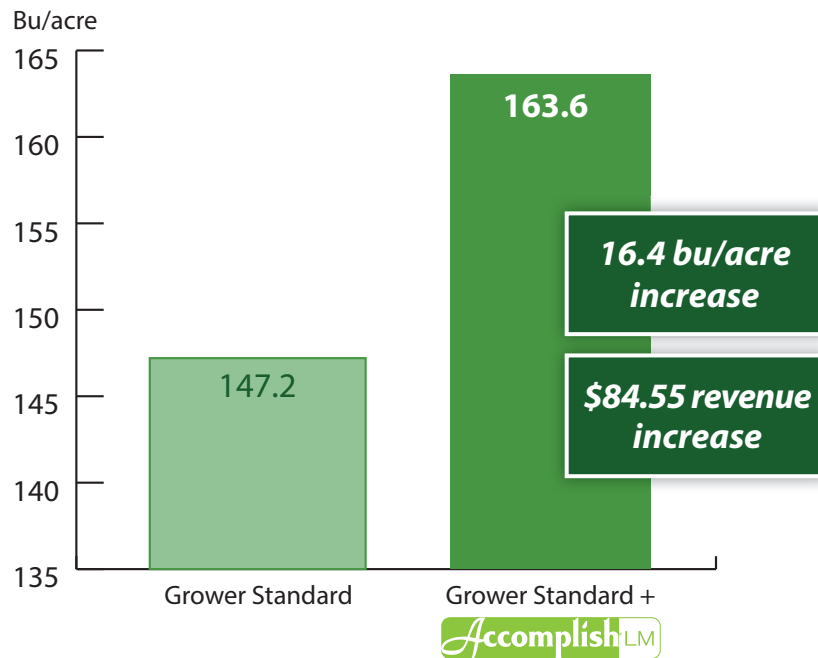

PRODUCT BENEFITS:

- Improves nutrient availability and uptake
- Enhances nutrient use efficiency
- Promotes better root growth and development
- Improves plant performance
- Optimizes yield potential
- Used at low volumes and compatible with a variety of fertilizers

Improved Corn Yields With Accomplish LM in a Sidedress Program

Corn – Worthington, IN (2011)

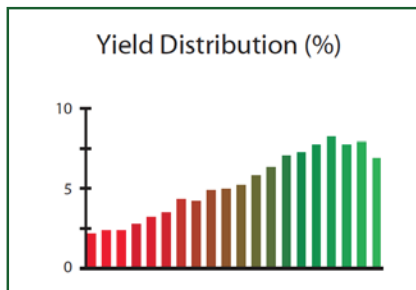

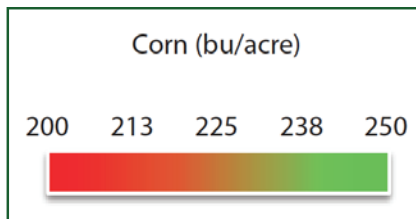

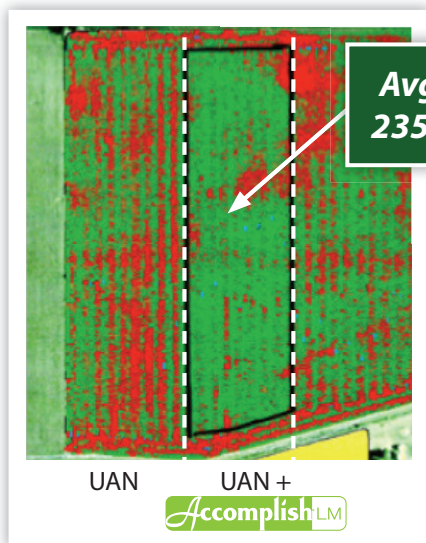

Accomplish LM applied at 2 quarts per acre with 43 gals 32% UAN at sidedress

Improved Corn Yields in Sidedress Programs

Corn Field – Clinton, IN (2009)

Accomplish LM applied at 1 quart per acre with sidedress UAN

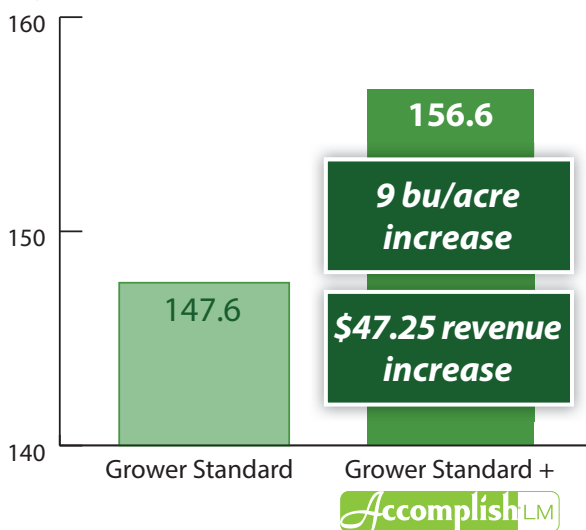

Data Values	
Avg. Yield	227.88
Avg. MC	13.93
Acres	97.60
Dry Bu.	22238
Wet Lbs.	1247238
Count	52749

Corn – Chandler, IN (2011)

Accomplish LM applied at 1 quart per acre with 35 gals 28% UAN at sidedress

Bu/acre

Revenue calculated at \$6/bu

Recommended Applications:

- 1 quart/acre with UAN up to 30 gallons
- 2 quarts/acre with UAN over 30 gallons
