

# Accomplish<sup>®</sup>LM

## Soil Applied

The Accomplish<sup>®</sup> line of products are innovative biochemical fertilizer catalysts designed for use with both liquid and dry fertility programs, significantly increasing fertilizer availability and overall plant performance. **Accomplish LM is specifically formulated for use with liquid fertilizer and broadcast applications.**

### PRODUCT BENEFITS:

- Improves nutrient availability and uptake
  - Helps maximize availability and uptake of phosphorous, potassium and other nutrients
- Promotes better root growth and plant development
- Improves plant performance
- May increase crop yield
- Used at low volumes and compatible with a variety of fertilizers

## Improved Root Development and Corn Performance in a 10-34-0 Starter Program

### Corn – CPS Field Trial, Frankfort, IN (2010)

Accomplish LM applied at 1 quart + 3 gallons of 10-34-0
