

SOIL APPLIED

The Accomplish® line of products are innovative biocatalysts designed to increase nutrient availability and improve overall plant performance. Accomplish LM and Extract Powered by Accomplish™ can be broadcast with manures or used as a manure pit treatment prior to pumping.

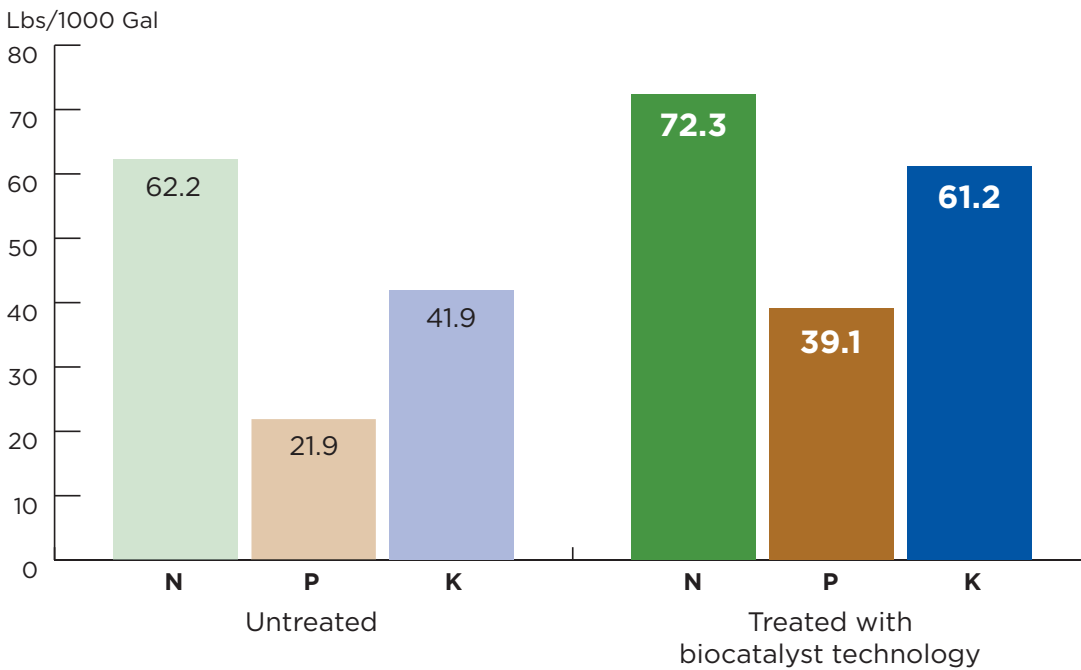

PRODUCT BENEFITS:

- Maximizes nutrient release from soil, crop residue and manures - more nutrients available faster
- Converts organic nutrients into plant available forms
- Improves plant performance for increased nutrient uptake
- Enhances nutrient use efficiency
- Optimizes yield potential

Nutritive Value of Treated Manure

Swine Manure – Winthrop, Iowa

Swine manure treated with Extract biocatalyst at 1 gal/acre

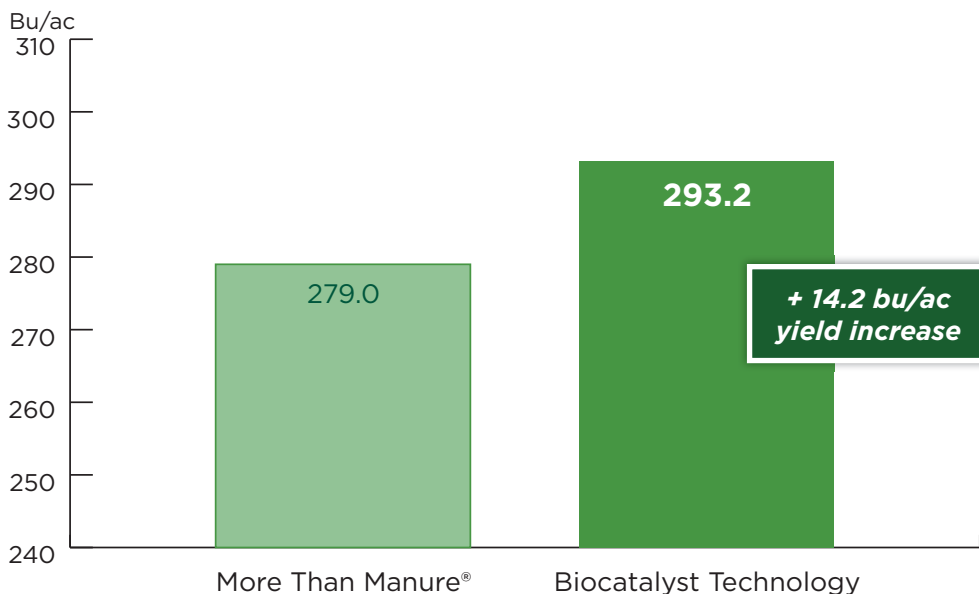

Note: Untreated values are the average of samples taken from 10 pits with same pigs and feed as biocatalyst-treated pit.

Greater Nutrient Release from Manure with Biocatalyst Technology

Corn - Monona, Iowa

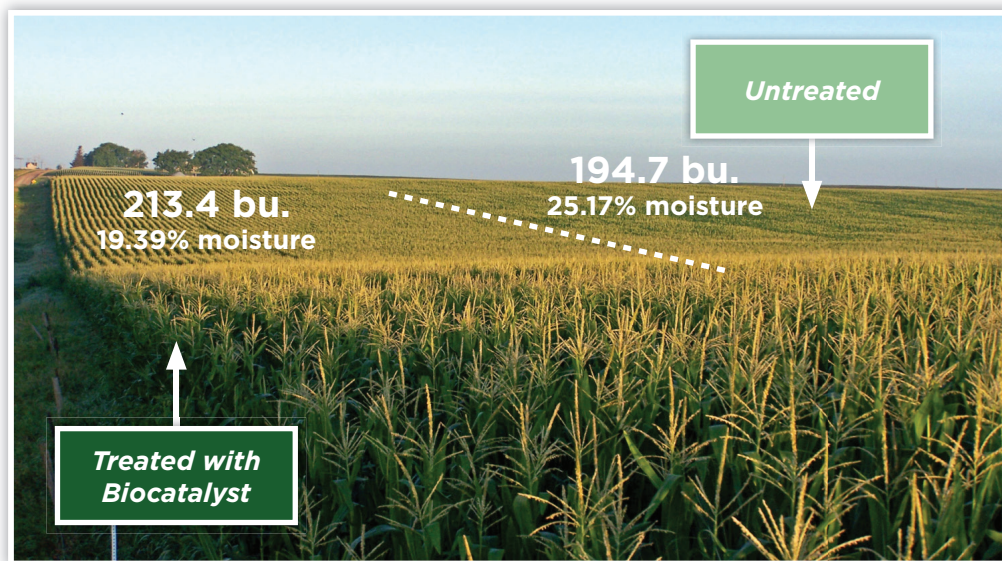

Treatments applied to cattle manure in fall of prior year

More Than Manure is a registered trademark of Verdesian Life Sciences.

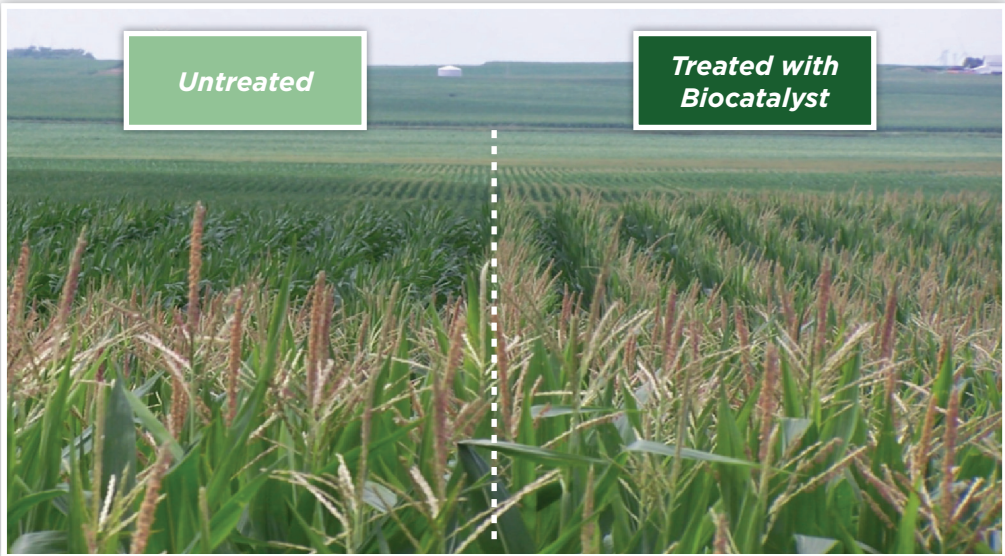

Corn - Wall Lake, Iowa

Biocatalyst technology applied with manure

Corn - Bangor, Iowa

Biocatalyst technology applied with manure

Corn - Truman, Minnesota

Biocatalyst technology applied with 3,000 gallons swine manure/acre
