

# FULLBACK®

Foliar or Soil Applied

**FULLBACK®** (6% Magnesium Acetate) is a unique type of liquid magnesium that delivers significant benefits over other foliar and soil applied magnesium sources. Unlike other magnesium sources, **FULLBACK** has been designed to deliver maximum magnesium uptake with minimal potential for plant phototoxicity.

## GROWER BENEFITS:

- Agronomically superior form of magnesium
- Superior foliar uptake and translocation within the plant
- Excellent crop safety

## APPLICATION INFORMATION:

**FULLBACK** can be used on all agricultural, horticultural and ornamental crops to enhance plant development and correct magnesium deficiencies.

## RATES:

Mild Deficiencies: 2.4 - 6 pints per acre

Moderate Deficiencies: 7.2 - 9.6 pints per acre

Severe Deficiencies: 10 pints per acre
