

MAXIMUM N-PACT K (12-0-12, w/ SRN) is an enhanced slow release nitrogen which provides a stable source of foliar nitrogen with the addition of potassium for increased uptake, translocation and utilization of nitrogen and potassium, with excellent crop safety and increased stress tolerance.

FEATURES:

- Balanced source of foliar nitrogen with the addition of a safe foliar potassium source
- Suitable for most specialty and field crops to enhance growth and quality, correct nitrogen deficiencies, and help plants recover from stressful conditions

GROWER BENEFITS:

- Drives key growth processes during times of peak demand
- Increased drought and salinity tolerance
- Supports photosynthesis during critical periods

RATES:

1-2 gals/A for most crops

ANALYSIS:

12-0-12
