

N-PACT[®]

26-0-0

N-PACT[®] (26-0-0, w/ SRN) is an enhanced slow release nitrogen which provides a stable source of foliar nitrogen with the addition of a controlled release nitrogen component supporting uptake and utilization of nitrogen for excellent crop safety and flexibility in application timing – fitting the needs of an array of crops and their needs.

FEATURES:

- Excellent source of foliar nitrogen with a portion of slow release nitrogen
- Supports major nutrient utilization, photosynthesis and protein development
- Suitable for most specialty and field crops to enhance growth and quality, support reproductive function, and help plants with timely nitrogen applications

RATES:

1-3 gallons for most crops

ACTIVE INGREDIENTS:

26-0-0 w/ 33% SRN

APPLICATION GUIDE:

V3-V8 or R Stages
