

LEVITATE® is a Loveland Products' proprietary starter fertilizer formulated with a proven fertilizer biocatalyst as well as a blend of ACA® technology, fulvic acids and EDTA chelated Zinc. For starter fertilizer users, **LEVITATE** is the only starter combining three fertilizer efficiency technologies to increase nutrient availability and uptake - Levitate is the proven platform in plant nutrition.

FEATURES:

- Low salt, seed safe, highly compatible
- Contains Acetate, Biocatalyst and Fulvic Acid Technology
- User friendly liquid fertilizer with utility across many crop

GROWER BENEFITS:

- Phosphate and zinc drive early season growth and development
- Buffers the effect of salts
- Enhanced nutrient availability and uptake

RATES

- Soybeans: 1 gal/A

BLENDING

Up to 128 oz of Levitate per acre

Up to 70 oz of Rebar per acre

At least 200 oz of water per acre

Add Rebar 3 and Levitate to water and agitate if available.

Rebar 3® (3% Iron) is a combination of ortho-ortho EDDHSA and EDDHA chelated liquid Irons designed to be readily available to crops across a wide range of soil conditions. **Rebar 3** is the only source of iron with two forms of chelated Iron to extend availability in severe alkaline soils and works to address iron chlorosis issues in affected crops.

FEATURES:

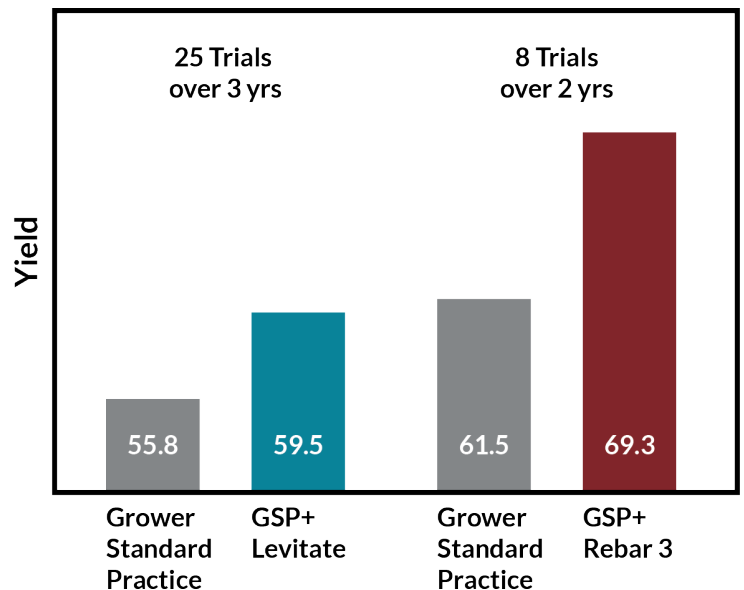

- Two Sources of Ortho-Ortho Chelated Iron
- Highly compatible liquid formulation
- Designed for in-furrow and banded applications

GROWER BENEFITS:

- Address iron chlorosis issues at a critical stage
- Dual Source Iron extends release curve and uptake of Iron
- Convenient application rates fit many acre solutions

RATES

- 1-3 quarts/A for most crops
