

For progressive corn growers that want higher yields, **Riser®** is the only seed safe, in-furrow pop-up fertilizer with Acetate technology proven to accelerate plant emergence and increase root mass.

FEATURES:

- Very low salt index for excellent seed safety
- High compatible formulation for flexibility in tank mixes
- Highly efficient at low volumes for efficiency in the field

GROWER BENEFITS:

- Phosphate and key micros drive growth and metabolism in many crops
- Drives early season plant vigor
- Increases rootmass and nutrient uptake

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.
