

Radiate®

Give back to your roots.

Labeled for the following applications:

Foliar

In-Furrow

Strengthen roots. Promote bigger, higher-quality yields.

Radiate, applied foliar or in-furrow, is a patented formulation of IBA and Kinetin that helps develop longer, stronger, healthier roots to improve nutrient uptake.

-  Enhance early season vigor.
-  Drive maximum root growth in row crops.
-  Get consistent performance and an undeniable advantage over an untreated control with Radiate's proven technology.

“What growers like most about Radiate is that it **offsets the stresses caused by weather**, and it **promotes a vigorous response** after various applications.”

—ROBBIE SCARBOROUGH, JR.
CPS CROP CONSULTANT
(BOYCE, LA)

Give back to your roots with Radiate.

Nutrien Ag Solutions and Radiate are proud to partner with National FFA Alumni and Supporters to provide chapter grant programs across the country.
