

Spray Indicator for Turf Use

Product Overview:

Turf Trax® is a temporary spray indicator used to show where spray applications have been made to turf. For use in boom, handgun and spot spraying applications.

Benefits:

- Mixes with water soluble pesticides and fertilizers
- Economical marker for all spray equipment
- Indicates skips and overlaps
- Promotes precise applications
- Indicates applicator contact with spray solution
- Application verification for crew and supervisor
- Indicates spray volume
- Indicates spray drift
- Can help identify equipment problems
- Breaks down with sunlight and water
- Safe and non-toxic
- Washes up with soap and water

Packaging/formulation information:

- Turf Trax Blue (liquid): available in 1 gallon and 2.5 gallon containers
- Turf Trax Blue HC (concentrated liquid): available in quart containers
