PRODUCTS

RADIATE®

RADIATE is a plant growth regulator with a patented formulation of Indole-3-butyric acid (IBA) and Kinetin. This patented formulation helps crops develop longer, healthier, stronger roots to improve nutrient uptake, stress resistance and plant health. In many soil types or application systems, the root force of RADIATE can enhance yields and crop quality.†

GROWER BENEFITS:

- Improves early season vigor
- Promotes root and shoot growth
- Reduces early season stress
- Labeled for both in-furrow and foliar applications
- Compatible with most fertilizers and pesticides

RATES:

2-4 fl oz/A for most crop

INTENSITY ONE®

INTENSITY ONE is a powerful clethodim that offers a quicker, more complete kill. INTENSITY ONE contains LECI-TECH® Technology getting TO, ON & IN the plant, providing improved leaf penetration along with superior translocation for increased performance.

GROWER BENEFITS:

- LECI-TECH Technology, getting TO, ON & IN the plant
- Improved penetration of the leaf cuticle & canopy for excellent rainfastness
- Quick uptake & translocation provide faster more complete weed control

RATES:

6 - 16 fl oz/A

QUICK ULTRA WITH AWAKEN®

QUICK ULTRA WITH AWAKEN® is potent foliar nutrition tool consisting of critical foliar phosphorus and dual sources of key micro nutrients in both chelated and complexed forms. The fully loaded nutrition package in QUICK ULTRA WITH AWAKEN allows growers to manage nutrition conveniently and effectively to meet yield and quality goals.

GROWER BENEFITS:

- Quick uptake of vital major and micro nutrients
- Formulated for to suite a board window of application to suit unique needs of different crops and geographies
- Drives your crop in times of yield and quality robbing stress

RATES:

1-2 quarts/A starting at 5 leaf stage

REIGN®

REIGN aids in reducing drift and improving coverage of pesticide or fertilizer solutions. REIGN is user-friendly and effective.

GROWER BENEFITS:

- REIGN will help reduce, but not eliminate, drift and aids in deposition in all types of agricultural sprays
- REIGN will not settle out or separate when agitation stops and will not leave a residue in the spray tank

RATES:

2 qt/100 gallons of spray solution. Check label for mixing order.

TASK FORCE® 3D

TASK FORCE 3D is a fully formulated foliar nutrition tool designed to support the early season needs of crops like soybeans and cotton. The supplemental nutrition found in TASK FORCE 3D is designed to help support flower set, bloom retention, and to promote fill of pods and fruit supporting your yield and quality goals.

GROWER BENEFITS:

- Re-designed for a quicker crop response
- Support basic metabolic process of the crop especially in periods of stress
- Better overall plant health and vigor

RATES:

1 to 2 quarts/A

STRIKE FORCE®

STRIKE FORCE is a proprietary adjuvant specifically researched and developed for D-traited (dicamba and 2,4-D tolerant crops) acre. Containing patented technology, STRIKE FORCE is designed to maximize performance.

GROWER BENEFITS:

- TO ON & IN with LECI-TECH® INSIDE
- Water conditioning component minimizes the effects of hard water
- Antifoam/defoam for quicker and easier spray tank filling

RATES:

2 qts/100 gals spray solution (minimum 10 GPA) Check label for mixing order

TOMBSTONE™ HELIOS®

TOMBSTONE™ HELIOS® is an enhanced insecticide with extended performance over other pyrethroids. The HELIOS technology protects the active ingredient from UV degradation, which extends the activity in the field.‡

GROWER BENEFITS:

- HELIOS Technology protects the active ingredient from UV degradation
- Extended activity & insecticide performance
- Quick knockdown & control over a broad spectrum of pests

RATES:

0.8-3.2 oz/A
